ABOUT ME

Determined and passionate aspiring **software developer** with a diverse range of interests in various different **frontend** and **backend** languages, **responsive frameworks**, databases and best code practices. Driven to become a versatile problem-solver, blending expertise from various domains to build impactful digital innovations.

EDUCATION

Maharaja Agrasen Institute of Technology (GGSIPU) Delhi, India

Graduating August, 2024

B.Tech in Electrical and Electronics Engineering

CGPA : 9.3/10.0

Kendriya Vidyalaya No - 3, Delhi, India

Class XII, (PCM + CS)

CGPA : 8.31/10.0

Class X

CGPA : 10.0/10.0

PROJECTS

Portfolio Site

 [Code](#) |  [Link](#)

- Built a personal portfolio website, equipped with a user-friendly interface showcasing a collection of diverse **projects**, highlighting my skills and passion as a software developer. Each equipped with detailed **descriptions**, **live** demos, and **GitHub** links for easy access to the codebase.
- Tech Stack : **React.js, SCSS, HTML, JavaScript, Sanity, Framer Motion**

E-Store

 [Code](#) |  [Link](#)

- A seamless shopping platform with secure **card payment** integration, easy "add to cart" functionality, and a user-friendly interface, providing customers with a delightful online shopping experience. The Owner can **edit** the **content** of the site easily with the help of Sanity.io
- Tech Stack : **HTML, CSS, JavaScript, React.js, Next.js, Sanity**

Social

 [Code](#) |  [Link](#)

- Social is a fully responsive Full Stack social media web application, with the security of **user authentication**, effortless login and registration, and the comfort of a **dark mode** interface.
- Engage with interactive features like liking, commenting, and connecting with friends, all presented in a **clean** and intuitive UI that elevates your social media experience to new heights.
- Tech Stack : **React.js, Node.js, Express, MongoDB, HTML, CSS, MUI**

SKILLS

Languages : C/C++, Python, JavaScript, SQL.

Frameworks : React.js, Express, Node.js, MongoDB, jQuery, Bootstrap.

Tools : VS Code, Git/GitHub, CLI, Postman.

Technical Skills : Data Structures and Algorithms, Object Oriented Programming, DBMS.

COURSEWORK

- Mastering [Data Structures and Algorithms](#) using C and C++ by Abdul Bari.
- The Complete [Web Development Bootcamp](#) by Dr.Angela Yu.
- Completed GDSC **GCCP**(Google Cloud Career Practitioners) Program.
- Successfully completed an [IIT-Certified Python](#) course, endorsed by the **Gov of India**.

[Google Cloud Profile](#)

ACHIEVEMENTS / PROFILES

- Solved Over 450+ problems on [LeetCode](#).
- Participated in **Smart India Hackathon(SIH)**. Built an AI-Chatbot using Python and NLP.
- Have a rating of 1500+ on [Codechef](#).
- Coding Profile [Codeforces](#).
